## **CHORUS ASSURE** FOR XMAS FETE

High School Students Will Assist in Yuletide Celebration.

## SIMON IS WELL PLEASED

Co-operation of School Super Highly Valued by Vice Chairman of Music Committee.

Leaders in the Community Christmas Tree feelival plans now feel assured of tree a larger chorus than they have counted on heretofore, and they are look-ing to the high school students of the District to make this increase. Dr. William M. Davidson, superintend-ent of schools, has been interested in the plan for a general Christmas celebration in Washington, and he will place it be-fore the schools for consideration tomor-row mornfug.

washing to consideration tomorthe morthing.

Dr. Davidson and Charles J. Columbus, ting for the music subcommittee of the meral Community Christmas committee, ok up the plains for the festival at a misrence yesterday. Dr. Davidson has omissed to communicate with the principals of the different schools to find out we many students will want to join the borns, as well as obtaining sugarstions to the best methods of organization. It niso is planned to designate one of he high school buildings as a place for the greater of the chercain that will be necessary.

It is probable that the date for the research more will be net.

There is a growing belief that within four to six weeks the final stand of the Hierta forces will be made near, or at, Mexico City. The problem which the State Department is now considering is how properly to safeguard the hundreds of foreigners there and nearly. The internal organizations for self-protection by the foreigners are known to be excellent in form, but the smallness of their numbers and the character of the fighting that will mark the latter hours of the Huerta regime occasions the department considerable unsasiness. To You the Men and Women Who Through Anxiety and Fear Have Drawn Your Money Out of The United States Trust Company

> I have the greatest sympathy with you and for you in your distress over the danger to your savings, or rather what seemed to you to be a danger.

> A seeming danger is just as real as a real danger. With this anxiety and concern you would not have been true to yourselves if you had not made every effort to save your money.

> I fully approve of what you did-seeing the situation as you did. Your savings were and are very sacred to you. They represent sacrifice-real sacrifice with many of you. But this safety move in drawing out your money

## Cost You in Interest \$25,000.00

Your loss in interest because of drawing your money before the fixed interest date has been just so much gain to the United States

In other words, your loss of \$25,000.00 in interest enriches the bank by \$25,000.00.

Now I don't want you to lose this money. You cannot afford to do it and shouldn't do it.

Here is a way you can save it: If you will reopen your account just as it was and where it was-reopen it on or before December first, which is next Monday, I will restore your account to good standing and pay you full interest exactly as if nothing had happened-exactly as if you had not drawn a cent of your money from the bank.

This means a loss to the bank of \$25,000.00 and the loss of interest during the time your money is out of the bank, and a big loss in the handling of an acute situation such as this has been.

But I prefer that the bank stands the loss instead of your standing it. The bank can much better afford to stand the loss than you can. Moreover, it is a good thing to be right-to do the square thing-and this is right and square.
